

## PPS Laundry button

UHF laundry coin, using PPS high-temperature resistant material and unique antenna design, can cope with the harsh high-temperature environment to preserve long-term, high-performance performance, service life can be maintained for 3 years or more than 300 washes. It can support printing, laser, data writing, etc. Widely used in Industrial laundry industry, Linen rental management, Hospitality, medical, military linen management

## Specifications

Parameter	Technical Specs
Product dimension(mm)	Ø22*2.2
Product material	PPS
Weight(g)	1.3
Color	Black
Operating temperature	-40°C to +220 °C
Protocol	ISO/IEC18000-6C&EPC C1 G2
Operating frequency	860~960MHz
EPC	96 bits
Product readability	1~3 m
Data Retention	> 10 years
The number of erases	100,000 times
Encapsulation process	Overmolding
Service Life	3 years or 300 washes
Installation	Sewn
Environmental Standards	RoHS compliant
Additional processes	printing, laser, data writing
